The Computer Science Department is a dynamic hub of innovation and learning. We offer a comprehensive curriculum that covers the fundamentals of computer science, as well as cutting-edge topics like artificial intelligence, machine learning, and cyber security. Our experienced faculty is dedicated to providing students with the knowledge and skills they need to succeed in the ever-evolving tech industry.

Here are some highlights of our department:

Experienced faculty: Our faculty members are experts in their fields and are passionate about teaching. They are committed to providing students with a high-quality education and are always available to offer support and guidance.

Comprehensive curriculum: Our curriculum covers a wide range of topics, from the basics of programming to the latest advancements in artificial intelligence. We also offer specialized courses in areas like data science, web development, and mobile app development.

State-of-the-art facilities: Our department is equipped with state-of-the-art computer labs and research facilities. We also have a dedicated library with a vast collection of computer science books and journals.

Active student community: We have a vibrant student community with various clubs and organizations. Students can participate in hackathons, coding competitions, and other events to enhance their skills and network with their peers.

Strong industry connections: We have strong ties with the tech industry and offer students opportunities to intern at leading companies. Our graduates are highly sought after by employers and have gone on to successful careers in various fields.
