

ABN & PRR COLLEGE OF SCIENCE- KOVVUR

ECO CLUB AND BOTANICAL GARDEN

Occasion: World Nature Conservation Day

Organized by: Eco club

Date: 28-07-2025

Venue: Biochemistry Lab

The Eco Club of ABN and PRR College of Science successfully celebrated **World Nature Conservation Day** on **July 28** with the objective of creating awareness among students about the importance of conserving nature and protecting biodiversity. The event aimed to encourage eco-friendly practices and promote environmental responsibility among the youth.

The programme began with a formal inaugural session. The **Principal** of the college addressed the gathering and highlighted the importance of nature conservation in today's rapidly changing environment. The Principal emphasized sustainable living practices and the role of students in protecting natural resources. The **Vice Principal** delivered an inspiring speech focusing on the need for collective responsibility in conserving nature and adopting environmentally friendly habits in daily life. The **Head of the Department** spoke about the significance of biodiversity conservation and stressed the importance of medicinal plants in maintaining human health and ecological balance.

As part of the celebration, students actively participated by **preparing and presenting posters and seminars** on themes related to nature conservation, environmental protection, biodiversity, and sustainable development. The posters reflected the creativity, awareness, and environmental concern of the students.

Students also **brought various medicinal plants** and explained their **uses, medicinal properties, and importance** in traditional and modern medicine. This activity helped in enhancing practical knowledge and created awareness about the conservation of medicinal plant species.
